

Maxtec® Anesthesia

Service. Quality. Value.

For years, Maxtec® products have been the source for oxygen analysis in the Operating Room and throughout the hospital. Our unmatched quality & long life warranties ensure customer satisfaction with every product.

Maxtec® is always finding new ways to improve our products & services to the anesthesia market. Our analytical tools provide a variety of solutions to ensure you maintain optimum services your clients expect. Maxtec® has the best variety of anesthesia replacement sensors on the market. Our patented weak-acid Max-2 and Max-8 come with an 18-month warranty and are insensitive to N₂O and CO₂ to give you the best

results. The Max-1 and Max-11 common form factors come with a 12-month warranty. Maxtec® also carries a vast range of generic reusable and disposable SpO₂ finger probes along with ear and multisite probes for nearly every SpO₂ manufacturer. Our Soft Tip® probes are made from a high-grade silicone and offer an unsurpassed 24-month warranty. They are exceptionally durable and require minimal maintenance.
